Explanation

The bill requires all prospective employees and contractors of long-term care facilities to submit to fingerprint-based state criminal history records checks, resulting in: (1) a potential cost to the Department of Emergency Services and Public Protection (DESPP), (2) a potential revenue gain to the General Fund,¹ and (3) a potential revenue gain to the Applicant Fingerprint Card Submission Account and various

¹DESPP conducts state criminal history records checks for a fee of \$75. The revenue that is collected from this fee is deposited into the General Fund.

municipal police departments² in FY 26 and FY 27. The potential cost to DESPP will depend on the extent to which the volume of new applicants for state criminal history checks increases department workload and impacts overtime. It is unknown how many employers already require such applicants to submit to such checks as a condition of employment.

There is no anticipated cost to the Department of Public Health as the existing long-term care background search program can accommodate any increase in background checks resulting from the bill.

The Out Years

The annualized ongoing fiscal impact identified above would continue into the future subject to the number of state criminal history records checks performed.

²DESPP conducts fingerprinting for a fee of \$15 fee per person paid to the Applicant Fingerprint Card Submission Account. Municipal police departments may also conduct the required fingerprinting for state criminal history records checks and typically charge a fee of \$10 to \$15.

OLR Bill Analysis**sHB 6774*****AN ACT CONCERNING LONG-TERM CARE FACILITY EMPLOYEE BACKGROUND CHECKS.*****SUMMARY**

Existing law requires the Department of Public Health to implement a criminal history and patient abuse background search program for employees and volunteers at long-term care facilities.

This bill requires all prospective employees at these facilities (whether direct hires or contracted positions), not just those who will have direct access to patients or residents as under current law, to undergo a criminal history and patient abuse background check. It retains the existing requirement that volunteers have a background check if the facility reasonably expects their duties will be substantially similar to employees with direct access to patients or residents.

As under existing law, facilities do not have to require a background search for a prospective employee or volunteer if the person provides evidence that one occurred no more than three years immediately before the date of applying for the employment or volunteer position (and no disqualifying offense was revealed).
