Explanation

The bill results in potential savings to municipalities electing to participate in the Municipal Employees Retirement System (MERS), starting in FY 27 at the earliest, depending on their enrollment date. Actual impacts are subject to plan demographics and performance. The bill outlines a new tier (MERS 2.0) and benefit option for members that have lower contribution rates than the current system and are designed to reduce volatility in the system's liability.

The bill additionally results in potential savings to the state for a new tier of group life insurance coverage for insured employees retiring on or after July 1, 2025, with twenty-five or more years of "credited state service" which narrows the number of eligible retirees from current law which requires twenty-five or more years of "state service."
