

General Assembly

Committee Bill No. 6257

January Session, 2025

LCO No. 6094

Referred to Committee on ENVIRONMENT

Introduced by: (ENV)

AN ACT AUTHORIZING THE USE OF TERRAMATION.

Be it enacted by the Senate and House of Representatives in General Assembly convened:

- Section 1. (NEW) (*Effective October 1, 2025*) (a) (1) For purposes of this section:
- (A) "Cemetery corporation" means any corporation formed for the disposal or burial of deceased human beings, by cremation, natural organic reduction or in a grave, mausoleum, vault, columbarium or other receptacle but does not include a family cemetery corporation or a private cemetery corporation. "Cemetery corporation" includes any cemetery, crematory or funeral home;
- 9 (B) "Holding facility" or "temporary storage area" means any area that
- 10 (i) is designated for the retention of human remains prior to cremation
- or natural organic reduction; (ii) complies with all applicable public
- 12 health laws; (iii) preserves the health and safety of the crematory or
- 13 natural organic reduction facility personnel; and (iv) is secure from
- 14 access by anyone other than authorized persons, with the interior of
- such area not visible from any area accessible to the general public;

LCO No. 6094 1 of 9

- 16 (C) "Natural organic reduction permit" means the permit required by 17 the Commissioner of Public Health for disposition of the remains of a 18 deceased human being by natural organic reduction;
- 19 (D) "Natural organic reduction" means the contained, accelerated 20 conversion of human remains to soil; and

- (E) "Natural organic reduction facility" means a structure, room or other space in a building or real property where natural organic reduction of a human body occurs.
- (2) Any cemetery corporation that operates a natural organic reduction facility shall have the following duties and obligations: (A) Each natural organic reduction facility shall be maintained in a clean, orderly and sanitary manner, with adequate ventilation and shall have a temporary storage area available to store the remains of deceased persons pending disposition by natural organic reduction, the interior of which shall not be accessible to the general public; (B) entrances and windows of any natural organic reduction facility shall be maintained at all times in order to secure privacy, including the tight closure of doors, the covering of windows and the provision of locked and secured entrances when not actively attended by authorized natural reduction facility personnel; (C) the natural organic reduction process shall be conducted in privacy and no person except authorized persons of such facility shall be admitted into the reduction area, holding facility or temporary storage facility while the remains of deceased human beings are being naturally organically reduced; and (D) authorized persons, on admittance, shall comply with all rules of the cemetery corporation and not infringe upon the privacy of the remains of any deceased person. For the purposes of this section, "authorized persons" includes (i) licensed, registered funeral directors, registered residents and enrolled students of mortuary science; (ii) officers and trustees of the cemetery corporation; (iii) authorized employees and authorized agents of the cemetery corporation; (iv) public officers acting in the discharge of their duties; (v) authorized instructors of funeral directing schools; (vi)

LCO No. 6094 2 of 9

licensed physicians or nurses; and (vii) members of the immediate family of the deceased person and authorized agents and designated representatives of such immediate family members.

- (b) No natural organic reduction facility shall naturally organically reduce the remains of any deceased human being without the accompanying natural organic reduction permit, required and prescribed by the Commissioner of Public Health, which shall constitute presumptive evidence of the identity of the deceased person's remains. A natural organic reduction authorization form, prescribed by the Commissioner of Public Health, shall accompany such permit and shall be signed by the immediate family member or authorizing agent who shall attest to the permission for the natural organic reduction of the deceased person and disclose to the natural organic reduction facility whether the body of such deceased person contains a battery, battery pack, power cell, radioactive implant or radioactive device or whether any such material was removed from the deceased person's body prior to the natural organic reduction process.
- (c) The natural organic reduction process shall not commence until reasonable confirmation of the identity of the deceased person is made. Such proof may be in the form of, but not limited to, a signed affidavit from a licensed physician, a member of the immediate family of the deceased person, an authorizing agent or a court order from the Superior Court. The natural organic reduction facility shall ensure that the identification established by the natural organic reduction permit accompanies the remains of the deceased person during the natural organic reduction process and until the identity of the deceased person is accurately and legibly inscribed on the container in which the remains of the deceased person are temporarily placed.
- (d) (1) The remains of a deceased person shall be delivered to the natural organic reduction facility in an alternative container or in external wrappings sufficient to contain the remains and that is designed to fully decompose in the natural reduction process. Such

LCO No. 6094 3 of 9

alternative container or external wrappings shall not be opened after delivery of the deceased person's body to the natural organic reduction facility unless there exists good cause to: (A) Confirm the identity of the deceased person, (B) ensure that no material is enclosed that might cause injury to employees of the natural organic reduction facility or damage to property of the natural organic reduction facility, or (C) upon reasonable demand by members of the immediate family or the authorized agent of such immediate family.

(2) In any instance in which such alternative container or wrappings are opened after delivery of the deceased person to the natural organic reduction facility, such action shall only be conducted by the licensed funeral director or registered person who delivers the remains of the deceased person. A record shall be made by such natural organic reduction facility, at the time of any such opening, that includes the reason for such action, the signature of the person authorizing such opening and the names of any person who opens such container or wrappings and the witness to such opening. Any such record shall be retained in the permanent files of the natural organic reduction facility. Any such opening of such container or wrappings shall be conducted in the presence of a witness and shall comply with any rule or regulation prescribed by the Commissioner of Public Health that is intended to protect the integrity of the deceased person's remains and the health and safety of natural organic reduction facility personnel.

(e) Whenever the remains of a deceased person are to be delivered to a natural organic reduction facility in a casket that is not to be naturally organically reduced with the deceased person, written notice of such fact shall be made by the person responsible for the funeral arrangements of the deceased person to the natural organic reduction facility. Such written notice shall indicate that prior to natural organic reduction, the remains of the deceased person are to be transferred to an alternative container. The natural organic reduction facility shall retain such written notice in the permanent records of such facility.

LCO No. 6094 4 of 9

(f) (1) The remains of a deceased person shall not be removed from the casket, alternative container or external wrappings in which they were delivered to the natural organic reduction facility unless a signed authorization is provided by the person responsible for making funeral arrangements for such deceased person or by a public officer discharging his or her statutory duty. Such signed authorization shall be retained in the permanent records of such natural organic reduction facility.

- (2) Whenever the remains of a deceased person are to be transferred to an alternative container, such transfer shall be conducted in privacy and with dignity and respect for such remains by the licensed funeral director or registered person who delivered such remains. Such transfer shall comply with all rules and regulations of the Department of Public Health that are intended to protect the dignity of the deceased person's remains and the health and safety of the natural organic reduction facility personnel.
- (g) No person shall commingle or place the naturally organically reduced remains of more than one deceased person in a reduction container at any one time except upon provision of a signed authorization provided by the person responsible for making the funeral arrangements for the deceased person and the signed approval of the natural organic reduction facility. Such authorizations and approvals shall be retained in the permanent records of the natural organic reduction facility.
- (h) (1) Upon the completion of the natural organic reduction of the remains of a deceased person, the interior of the natural organic reduction container shall be thoroughly swept or otherwise cleaned so as to render the natural organic reduction container reasonably free of all matter. The contents of such reduction container shall be placed into an individual container and not commingled with other remains. The natural organic reduction permit shall be attached to the individual container in preparation for final processing.

LCO No. 6094 5 of 9

(2) Use of a magnet and sieve, or other appropriate method of separation, may be used to divide such remains from unrecognizable incidental or foreign material.

- (3) Any incidental or foreign material of the natural organic reduction process shall be disposed of in a safe manner in compliance with all sanitary rules and regulations of the Commissioner of Public Health for such by-products.
- (4) Such remains shall be pulverized until no single fragment is recognizable as skeletal tissue and such pulverized remains shall be transferred to a container or to multiple containers, if so requested in writing by the person responsible for making the funeral arrangements for the deceased person. Any such container shall have inside dimensions of suitable size to contain such naturally organically reduced remains and shall be accurately and legibly labeled with the name of the person whose remains are contained therein, in a manner as prescribed by the Commissioner of Public Health.
- (i) (1) Upon completion of the natural organic reduction process, the cemetery corporation shall notify the person responsible for making the funeral arrangements for such deceased person that the natural organic reduction process is complete and that the remains are prepared to be disposed of in accordance with the provisions of this subsection. The person responsible for making the funeral arrangements for such deceased person shall be responsible for the final disposition of such remains. Such remains shall be disposed of through the scattering of such remains in a designated scattering garden or area in a cemetery or, by prior authorization by the cemetery corporation, by placing such remains in a grave, crypt or niche, or retention of such remains, pursuant to prior authorization, by the person responsible for making the funeral arrangements for such deceased person. Such remains shall not be recoverable once they are scattered or interred. No such remains shall be utilized or sold for any purpose related to the development of direct-to-consumer food sales.

LCO No. 6094 6 of 9

(2) If, after a period of more than sixty days after the date of the completion of the natural organic reduction process, the person responsible for the funeral arrangements for the deceased person has not instructed the cemetery corporation to arrange for the final disposition of the remains or claimed the remains, the cemetery corporation may dispose of such remains in any manner prescribed by this subsection. The cemetery corporation shall keep a permanent record identifying the site of final disposition for any such remains. The person responsible for the funeral arrangements for such deceased person shall be responsible for reimbursing the cemetery corporation for all reasonable expenses incurred for the disposing of such remains in accordance with the provisions of this subsection. After the disposition of such remains, the cemetery corporation shall be discharged from any legal obligation or liability concerning the remains.

- (3) Unless the person responsible for making the funeral arrangements for such deceased person provides written permission, no person shall place remains of more than one person in the same temporary container or urn.
- (j) Any employee of a natural organic reduction facility who is responsible for conducting the daily operations of the natural organic reduction process shall be certified by an organization approved by the Commissioner of Public Health. Proof of such certification shall be posted in the natural organic reduction facility and available for inspection at any time. Any new employee of a natural organic reduction facility required to be certified pursuant to this subsection shall be certified not later than one year after commencement of such employment. Any employee of a natural organic reduction facility required to be certified pursuant to this subsection and employed by such facility prior to the effective date of this section shall be certified not later than one year after such effective date. Such certification shall be completed every five years from the date of such certification.
 - (k) (1) Any cemetery corporation that seeks approval to operate a

LCO No. 6094 7 of 9

- 208 natural organic reduction facility shall submit for approval by the 209 Commissioner of Public Health the following:
- 210 (A) A list of the directors, employees and certificate holders of the 211 cemetery corporation;
- (B) A certified survey of the site and location where such facility will be located;
- (C) A business plan for the operation of the natural organic reduction facility that includes, but is not limited to, the number of expected natural organic reductions per year, the number of natural organic reduction units to be used, all manufacturing, capital costs and financing, the anticipated number of employees, the types of services provided and pricing thereof;
- (D) A description of the impact of the proposed natural organic reduction facility on other natural organic reduction facilities, if any, within the county where such facility is located;
- (E) Plans, designs and costs of any structures to be erected or retrofitted for the natural organic reduction facility use;
- (F) A description of any other approvals or permits required by state law or municipal ordinance; and
- 227 (G) A one-hundred-fifty-dollar inspection fee.

(2) The commissioner shall not approve any natural organic reduction facility that does not have all other approvals or permits. The commissioner may request from such applicant any additional information or documentation and technical assistance deemed necessary to review such information. Such information shall not be deemed complete until any requested additional information has been received by the commissioner. The commissioner shall approve or deny the proposed natural organic reduction facility not later than ninety days after completion of the submission of all information by written

LCO No. 6094 8 of 9

- notice. If the commissioner denies any application for such a facility, such written notice shall state the reasons for such denial.
- (l) The Department of Public Health shall have authority to take all necessary measures to secure and protect the integrity of any human remains that are subject to such natural organic reduction processes when any facility that conducts such processes discontinues operations or provides notice to such department of an intent to discontinue such operations.
 - (m) Not later than October 1, 2026, the Commissioner of Public Health shall adopt regulations, in accordance with the provisions of chapter 54 of the general statutes, to implement the provisions of this section. Such regulations shall take effect not later than January 1, 2027.

This act shall take effect as follows and shall amend the following		
sections:		
Section 1	October 1, 2025	New section

Statement of Purpose:

To authorize the use of terramation as an alternative to cremation.
