sHB 7210 (as amended by House "A")*

AN ACT CONCERNING HALFWAY HOUSES AND OTHER RESIDENTIAL FACILITIES OPERATED ON BEHALF OF THE DEPARTMENT OF CORRECTION, DEPARTMENT OF MENTAL HEALTH AND ADDICTION SERVICES OR THE BOARD OF PARDONS AND PAROLES.

SUMMARY

This bill makes changes related to state-contracted residential facilities, commonly referred to as “halfway houses,” operating on behalf of the Department of Correction (DOC) or Board of Pardons and Parole (BOPP, see BACKGROUND). These facilities usually serve as part of a person’s reentry from a DOC facility into the community, and residents generally remain in the department’s custody until specified terms and conditions are met.

Under the bill, any contract to operate such a facility must generally require that a resident’s discharge from the facility be done according to the resident’s discharge plan developed by DOC or BOPP, as applicable. (Presumably, the department and the board must develop these discharge plans going forward.)

The bill also requires these contracts to do the following:

1. prohibit a person operating a facility from discharging any resident due to the facility’s closure, unless the resident being discharged is being moved to a residential facility that the DOC commissioner or BOPP chairperson, as applicable, deem equivalent to the closing facility (the bill does not specify standards they must use to make this determination);
2. if no equivalent facility is available, require the contracted person to keep the closing facility operational until each resident is discharged in accordance with his or her discharge plan as

mentioned above; and

3. require the contracted person who is closing the facility as described above to be responsible for any costs incurred in carrying out the bill's provisions.

The bill is silent on how its provisions would be enforced.

*House Amendment "A" removes halfway houses operated on behalf of the Department of Mental Health and Addiction Services from the bill's requirements.

EFFECTIVE DATE: Upon passage
