The amendment strikes the language in the underlying bill and the associated fiscal impact.

**Sections 1-3** establish various reporting requirements for the Department of Developmental Services (DDS) and require a working group to study and make recommendations on the current and future use of Southbury Training School. This has no fiscal impact to the state as DDS already has the necessary resources and expertise to do so.

**Section 4** requires the Department of Social Services (DSS) to apply for any available federal or private grant funding to conduct a statewide autism needs assessment. To the extent DSS is awarded such funding, the agency will utilize the funds to conduct the needs assessment.

**Section 5** requires the Office of Policy and Management (OPM) to establish a working group to study the feasibility of an interagency complex case team for young adults with intellectual or developmental disabilities and co-occurring needs, and to submit a report of findings and recommendations to the General Assembly by February 1, 2026. This does not result in a fiscal impact to the state as OPM already has the necessary resources and expertise to do so.

*The preceding Fiscal Impact statement is prepared for the benefit of the members of the General Assembly, solely for the purposes of information, summarization and explanation and does not represent the intent of the General Assembly or either chamber thereof for any purpose. In general, fiscal impacts are based upon a variety of informational sources, including the analyst's professional knowledge. Whenever applicable, agency data is consulted as part of the analysis, however final products do not necessarily reflect an assessment from any specific department.*
