Explanation

The amendment strikes the underlying bill and the associated fiscal impact.

The amendment, which requires the copies of recordings or stenographic records of the proceedings before an agency be provided at the cost of the requesting party, results in a potential minimal cost to the state to the extent they are the requesting party, or they bear some burden of the costs of providing the transcription. The bill presumes the availability of a stenographer and establishes a rate (\$2.40 per transcript page) which may be charged for transcriptions. It is uncertain whether this rate would be sufficient to cover the transcription costs of all requested records.
