AN ACT CONCERNING PROTECTIONS FOR ACCESS TO HEALTH

AMENDMENT

The amendment strikes Section 24 and the associated fiscal impact. The amendment removes the language exempting the overdose prevention centers from requiring a certificate of need (CON) and instead expressly requires a CON for the purpose of establishing such centers. To the extent this delays or prevents the establishment of an overdose prevention center through the pilot, the amendment reduces the potential cost to the Department of Mental Health and Addiction Services to implement or operate the pilot using non-state funds. Specifically requiring a CON could also result in a revenue gain associated with the CON application fee.

The preceding Fiscal Impact statement is prepared for the benefit of the members of the General Assembly, solely for the purposes of information, summarization and explanation and does not represent the intent of the General Assembly or either chamber thereof for any purpose. In general, fiscal impacts are based upon a variety of informational sources, including the analyst's professional knowledge. Whenever applicable, agency data is consulted as part of the analysis, however final products do not necessarily reflect an assessment from any specific department.
