The amendment strikes the language in the underlying bill and the associated fiscal impact.

The amendment requires a specific review and approval process for any amendment to the Medicaid state plan to provide medical assistance through a Medicaid managed care organization, including the advice and consent of the General Assembly. To the extent this delays or prevents a change that otherwise would have occurred, the state could experience a fiscal impact that cannot be determined at this time.

The preceding Fiscal Impact statement is prepared for the benefit of the members of the General Assembly, solely for the purposes of information, summarization and explanation and does not represent the intent of the General Assembly or either chamber thereof for any purpose. In general, fiscal impacts are based upon a variety of informational sources, including the analyst's professional knowledge. Whenever applicable, agency data is consulted as part of the analysis, however final products do not necessarily reflect an assessment from any specific department.
