Insurance and Real Estate Committee

**AN ACT CONCERNING REVISIONS TO THE HEALTH INSURANCE
STATUTES**

SUMMARY: This act makes three unrelated changes to the insurance statutes.

First, the act eliminates a requirement that the insurance commissioner contract with the UConn Center for Public Health and Health Policy (which no longer exists) to conduct reviews of mandated health benefits upon the Insurance and Real Estate Committee's request. Instead, it allows him to contract with any actuary, actuarial firm, quality improvement clearinghouse, health policy research organization, or other independent expert necessary to help him with the reviews. By law, the reviews evaluate the social and financial impacts of the health benefits.

The act delays the annual due date for pharmacy benefit managers (PBMs) to report prescription drug rebate information to the insurance commissioner by one month, from February 1 to March 1. It correspondingly delays the annual due date for the commissioner to report to the Insurance and Real Estate Committee on the PBMs' rebate reports, from March 1 to April 1.

Lastly, the act allows, rather than requires as under prior law, the insurance commissioner to adopt regulations to implement health insurance requirements for medically necessary wheelchair repairs and replacements. By law, an insurer cannot require a new prescription or prior authorization for the medically necessary repair or replacement of a complex rehabilitation technology wheelchair unless the original prescription is more than five years old.

EFFECTIVE DATE: Upon passage, except the mandated health benefit review program provision is effective October 1, 2025.
