sSB-321

AN ACT CONCERNING REQUIREMENTS FOR CERTAIN
EXCAVATION PROJECTS.

OFA Fiscal Note

State Impact: None

Municipal Impact: None

Explanation

The bill requires the Public Utilities Regulatory Authority (PURA) to develop a process for telecommunications service providers and broadband Internet access service providers to apply for approval to build underground facilities in various locations. This does not result in a cost to PURA as they have a similar process in place and have the staff and expertise necessary to complete the requirements of the bill.
