sSB-483

AN ACT ESTABLISHING THE CRIME OF DIGITAL FORGERY.

OFA Fiscal Note

State Impact:

Agency Affected	Fund-Effect	FY 27 \$	FY 28 \$
Correction, Dept.; Judicial Dept. (Probation)	GF - Potential Cost	Minimal	Minimal
Resources of the General Fund	GF - Potential Revenue Gain	Minimal	Minimal

Note: GF=General Fund

Municipal Impact: None

Explanation

The bill creates a new crime of digital forgery, punishable as a class A misdemeanor or class E felony, which results in a potential cost to the Department of Correction and the Judicial Department for incarceration or probation and a potential revenue gain to the General Fund from fines. On average, the marginal cost to the state for incarcerating an offender for the year is \$3,300¹ while the average marginal cost for supervision in the community is less than \$600² each year for adults and \$450 each year for juveniles.

¹ Inmate marginal cost is based on increased consumables (e.g., food, clothing, water, sewage, living supplies, etc.) This does not include a change in staffing costs or utility expenses because these expenses would only be realized if a unit or facility opened.

² Probation marginal cost is based on services provided by private providers and only includes costs that increase with each additional participant. This does not include a cost for additional supervision by a probation officer unless a new offense is anticipated to result in enough additional offenders to require additional probation officers.
