within a DEEP program and does not result in a fiscal impact.

Sections 505 - 508 make various changes that limit activities across the state to prevent wildfires. The amendment prohibits open brush burning within 100 feet of a woodland or grass land area when the DEEP commissioner identifies the forest fire risk as high or very high and extends the length of time the state forest fire warden may approve reimbursement for various emergency services. These procedural changes do not result in a fiscal impact as the agency currently has the ability to provide reimbursements beyond the one-month deadline.

Additionally, the amendment (1) broadens the Governor's authority to ban access to and burning on certain woodlands and brushlands, and (2) increases the fine for violating a ban from a minimum of \$5 and a maximum of \$100, to a minimum of \$500 and a maximum of \$1,000, resulting in a potential revenue gain to the General Fund beginning in FY 27¹. The extent of the revenue gain will depend on whether the governor enacts such a prohibition, the number of violations, and the fines imposed, with a minimum potential revenue gain of \$400 per violation.

The preceding Fiscal Impact statement is prepared for the benefit of the members of the General Assembly, solely for the purposes of information, summarization and explanation and does not represent the intent of the General Assembly or either chamber thereof for any purpose. In general, fiscal impacts are based upon a variety of informational sources, including the analyst's professional knowledge.
