

IMPROVING STUDENT ATTENDANCE

SMALL GROUP DISCUSSIONS

Facilitator:

1. Allow max 10 minutes for each question
 2. Ask someone to be note taker
 3. Allow people from each district to share (if they want)
- What community resources/agencies have you used for attendance issues and have they been successful in helping your students return to school? Or should we say “helping your students improve their attendance?”
 - What school based interventions/strategies have you used that have been successful?
 - How are you tracking and reporting attendance?
 - How are you communicating student attendance to parents, both before it is an issue and once it becomes an issue?
 - What do you see as challenges/gaps or what do you most need (what’s missing)?
