

## **ECS Funding Explanation**

The Governor's budget proposes to fund the ECS formula at the Fiscal Year 2021 level for each year of the biennium. There would be a 2 year pause in the phase-in of ECS to the statutorily defined full funding level. This pause would hold districts harmless to enrollment changes caused by the pandemic and maintain level funding for districts that would have experienced a reduction in their ECS grant as part of the phase-in process.
