ESSER II 2-18-2021 Letter to Superintendents

CSDE ESSER II Priority Areas and Uses of Funds

PRIORITY 1: Academic Supports, Learning Loss, Learning Acceleration and Recovery

Equity and access in education for students in Connecticut remains a top priority. As we have worked to help close the digital divide through technology and connectivity, we must measure and plan to address learning loss. Our academic supports must be positioned to accelerate learning and facilitate recovery. It is particularly important that we measure learning loss and target resources for our students disproportionately affected by the pandemic. Access must be focused on our most vulnerable students, including students whose progress decreased, students with disabilities, English learners, students experiencing homelessness, disengaged youth, or those with barriers to remote learning. Targeted supports that should be implemented include but are not limited to additional classroom supports, high dosage small group tutoring programs including in school and after school, extended day programs and expanded access to summer school.

My district is using ESSER II funds for Priority 1 purposes.

Priority 2: Family and Community Connections

Direct engagement with families and the community, such as faith-based organizations, businesses, and social service providers, will provide added supports for our students while we continue this school year and adapt to the changing dynamics of this pandemic. Among other opportunities to increase initiatives that engage school, family and community connections, schools should engage "Family Academy" programs aimed at providing parents and guardians with the skills to support their children's academic endeavors, including those skills necessary to support technology use in the home.

My district is using ESSER II funds for Priority 2 purposes.

Priority 3: School Safety and Social-Emotional Well-being of the "Whole Student" and of our School Staff

There is an unprecedented level of stress on both students and staff members which must be addressed, both through social and emotional support and also through continued emphasis on public health safety measures. One focus area should be on additional behavioral and mental health services delivered in-person or via remote/ telehealth access and social and emotional support mechanisms, so that these supports are available even for individuals who may have limited in-person access. Resources should also continue to be allocated to support the physical health and safety of our students and staff, (e.g., to ensure adequate personal protective equipment (PPE), cleaning supplies, etc.).

My district is using ESSER II funds for Priority 3 purposes.

Priority 4: Remote Learning, Staff Development, and the Digital Divide

We have successfully worked to close the digital divide in Connecticut. Resources should be allocated to (1) maintain or upgrade access to technology and connectivity for the long term; (2) increase robust professional development for staff to hone their skills in providing remote learning; and (3) provide technical assistance and/or training for families, so that students, school staff, and families are all prepared to use remote platforms to effectively maximize student learning.

My district is using ESSER II funds for Priority 4 purposes.

Special Assurance on Continued Payments

Test District (000-000) Test District - FY 2021 - ESSER II Funds - Rev 0 - Assurances

*** Select one:**

- To the greatest extent practicable, we have continued to pay our employees and contractors during this period of any disruptions or closures related to coronavirus.
- We have NOT been able to continue payments to our employees and contractors during this period of any disruptions or closures related to coronavirus. The reasons include:

Employees and contractors shall be as defined in Executive Order 7R, excerpted relevant sections below (full order here: [Executive Order 7R](#))

2. Continued Payment of Public School Staff. *In recognition of the fact that schools are required to provide a broad and constantly changing spectrum of services to students and families and will need to reengage students as quickly as possible upon resuming classes, school districts shall continue to employ or restore to employment, including already laid off, and pay school staff who are directly employed by the local or regional board of education, including but not limited to teachers, paraprofessionals and other support staff, cafeteria staff, clerical staff, and custodial workers, to the greatest extent practicable. Local and regional boards of education may require school staff to provide services during the period of closure to the extent consistent with state and federal laws, including any applicable Executive Orders, guidance, or public health recommendations, and shall not be required to continue such employment if the staff member secures other employment, or if the staff member would have been separated for reasons other than circumstances related to the COVID-19 pandemic. Nothing in this order shall affect the ability of the local or regional board of education to reduce the number of staff members prior to the start of the 2020-2021 school year due to budget reductions or as otherwise necessary outside of the circumstances of the COVID-19 pandemic, in compliance with current legal requirements.*

3. Preservation of Student Transportation Services and Special Education Providers. *To the extent that a board of education, or in cases where the municipality holds the contract, the municipality with agreement from the board of education, determines that a contract related to student transportation or the provision of special education services by a public special education provider or an approved private special education provider requires amendment to more accurately reflect the actual costs incurred during the duration of the public health and civil preparedness emergencies, all parties shall promptly negotiate amendments to such contracts with student transportation providers and/or special education providers with terms that are consistent with the goals of: (1) sustaining continuity of service when school resumes; (2) continuing (a) to make tuition payments to special education providers so that they may compensate their active employees and provide them health insurance and (b) to make payments to transportation providers so that they may compensate their active employees and provide them health insurance; and (3) requiring the contracted company to attest and provide reasonable documentation of the fact that it is charging only the actual and reasonable cost of sustaining wage and health insurance payments for active employees and/or fleet while also engaging best efforts to avoid unnecessary costs. Such continued compensation and health insurance for staff or others providing special education and transportation services and employees shall be continued to the greatest extent practicable -- whether full-time or part-time -- at rates commensurate to those paid and provided immediately prior to the declaration of these public health and civil preparedness emergencies, whether or not services are actually or immediately rendered. Nothing in this provision shall allow for contracted companies to be enriched beyond the actual and reasonable costs incurred for the purposes set forth above.*
