

Early Screening and Intervention (ESI) Program

2019 & 2020 Data Report on
Treatment Service Provision

March 5, 2021

Data for this report is from January 2019 to December 2020.

- Due to technical issues, the data from Hartford's G.A. only includes January of 2019 to March of 2020. Because of this, the data sample from Hartford is much smaller than it should be. Data from Hartford is still included in comparisons.
- Often times cases receive multiple types of treatment so "total cases provided treatment" won't always match the types of treatment breakdown. Differences in service provision may also be due to how each G.A. records data differently.
- Data from 2020 is skewed due to the constraints on the courts and service providers due to COVID-19. Many ESI cases have been continued for months and prosecutors/resource counselors are struggling to contact and meet with defendants.

ESI Cases by Treatment (2019 & 2020)

	Waterbury		Bridgeport		New Haven		Hartford		New London		Norwich		Total	
	Number	Percent	Number	Percent	Number	Percent	Number	Percent	Number	Percent	Number	Percent	Number	Percent
Mental Health Treatment	5	0.5%	224	15.4%	56	8.7%	109	29.3%	107	31.0%	110	29.0%	611	14.8%
Substance Abuse Treatment	22	2.4%	46	3.2%	113	17.6%	153	41.1%	28	8.1%	108	28.5%	470	11.4%
Homelessness Treatment	0	0.0%	0	0.0%	10	1.6%	100	26.9%	0	0.0%	0	0.0%	110	2.7%
Total Cases Provided Treatment	27	2.9%	270	18.6%	152	23.6%	212	57.0%	118	34.2%	152	40.1%	931	22.6%
Total Number of ESI Cases	933	23%	1451	35%	643	16%	372	9%	345	8%	379	9%	4123	--

*Percent is out of total ESI cases

*Types of treatment combined ≠ Total Cases Provided Treatment because cases often receive multiple types of treatment services

ESI Cases by Treatment 2019

	Waterbury		Bridgeport		New Haven		Hartford		New London		Norwich		Total
