

DOT VISION AND CORE SERVICES

The vision of the DOT is to deliver a “best-in-class” transportation system that:

- **Eliminates pervasive, obsolete and deficient highway, bridge, and rail system conditions**
- **Invests in high performing, new rail, bus, highway and non-motorized capacity**
- **Propels Connecticut’s economy and distinguishes the state as a premier choice for residential, business and recreational location**

DOT’s Core Services

- **Operation and maintenance of safe and efficient state-owned highways, bridges, rail, transit, bicycle and pedestrian systems**
- **Stewardship of system conditions and performance**
- **Delivery of capital program priorities based on asset management and economic impact priorities**
