

Dear Madames and Sirs

We pay a lot of money to Eversource.

There wasn't a truck on the roads for 5 days after the storm.

Where are our CT women and men Eversource employees?

Why did I have truckS from Canada and North Carolina on my road 6 days later.

They didn't fix our line until 7 days later.

We were blocked in.

A neighbor finally took a chainsaw to the tree so we could get out.

We have elderly people and young children on our street. An ambulance or fire truck would not have gotten though were it for the brave soul with a chainsaw.

The pole looks like it was fixed with a shoelace.

I don't feel safe with this company.

I feel there is corruption.

Sincerely yours,
Michelle Leonard
