## Updated: Meeting of 2/10/23 at D2 Office

	<u>COMMENTS</u>
	ng/equipment/distribution piping & associated pumps & controls due to failiures
	place exterior doors/windows due to pcb/hazardous materials and litigation
	re alarm system is obsolete and parts no longer available. plementation of Design
	stallation of barrier to prevent jumping from upper tier
(BI-JA-476) Re	pair exterior masonry structures including the exterior wall due to aging
	tallation of new programs building
	ded to settle a DOJ ADA law suite
	ded to settle a DOJ ADA law suite
	equired to house the new vocatonal village program C, Sprinkler, ADA Bathrooms, Office
Renovate clas	
	equired to house the new vocatonal village program
	tion for arsenic
	n of Sprinkler Study. State Fire Marshal violation
	n to cover roof
	e repairs needed
	olete/unsupported and is problematic and unreliable n is obsolete and parts are no longer available
<u> </u>	system is obsolete. Needs upgrade.
	or doors into Main control
	-up air unit for Kitchen
	equired to able to completely shut down the facility.
	sting dumb waiter service elevator
	equired for vocational programs
	ed to be able to maintain heating for COPAT o be replaced to be compliant with the new EPA standards for emissions.
	vator management systems
Security enhar	
	blete/unsupported and is problematic and unreliable
	system is obsolete. Needs upgrade.
	urity concerns
	eras to cover hospital and school
	ew above ground storage tanks (Near Staff Parking )
	placement of UST with new above ground tank Garage (1,000 gal) Fuel oil
	placement of UST with new above ground tank Wellness Ctr (3,000 gal) Fuel oil al to construction leaking causing safety issue
	/stem is out dated and no longer supported
Roof leaks	otom to out dated and no tongor oupported
Replacement of	of (3) Trane Kitchen Make up Air Units
	dundancy if existing distribution loop goes down-no heating or domestic hot water
	and devices in the facility are failing due to age and condition
	kisting fire Alarm certain locations on the east side
	o waiters and passenger elevators nd frames are severely rotted.
	or North Block Heating and Domestic Water
	system is obsolete. Needs replacement.
	system is obsolete. Needs upgrade.
	system is obsolete. Needs upgrade.
	ged asphalt with new concrete
	sformer to eliminate power feed from CCI Tunnel
	rec yards and program space
	olete/unsupported and is problematic and unreliable
	/ebster and Cheshire in an extended power outage urity concerns
	ausing hazardous condition in many locations
	ng and increase usable space
Cell Block Sho	ower areas need repairs
Expand system	n to cover PREA requirements
Body alarm sy	stem is obsolete and parts are no longer available.
	valls and floors
	of existing obsolete units
	ions create hazards for the public and staff
	ility of cell block door closers.Current system is obsolete;parts no longer available
Repair metal re	oot ausing hazardous condition in many locations
	g causing trip hazard.
	ed its life expectancy and repairs are frequent
	ank Dorm 3 & 4 (3,500 gal) Diesel fuel
teplace 001	

Replace UST tank Annex #1 Dorm 1 & 2 (2,000 gal) diesel fuel
Existing cabling is antiquated requiring extensive service to main each year
Visibility problems and high energy consumption
Removal & Replacement of UST Munger Building (1,000 gal) diesel
Visibility problems and high energy consumption
Removal & Replacement of UST Chapel (1,000 gal) #2 fuel oil
Remove carpet throughout Replaced production kitchen freezer due to
Pavement maintenance, improve handicap accessibility
Replace UST North Block - north side (2,500 gal) diesel
Replace UST South Block - south side (4,000 gal) diesel
Boiler has exceeded its useful life and needs replacement
Removal & replacement with new above ground tank Madison (2,500 gal) unleaded gas
Removal & replacement with new above ground tank New Center (8,000 gal) diesel
Replace inoperable/obsolete intercom system
Per Public Act 22-133: Develop plan for the provision of health care services for inmates
Security enhancement
Upgrade Dumb waiters and Elevators past useful life System is obsolete/unsupported and is problematic and unreliable
Existing surface has failing bituminous concrete
Existing body alarm is problematic and no longer supported.
Stop water damage from rain and snow
Safety and security concerns
Original to construction of building increase efficiency
Upgrade original valves and plumbing fixtures
Scheduled maintenance, recent leaks from failed seams and flashing
Existing paint on water tank is failing.
System is obsolete/unsupported and is problematic and unreliable
System is obsolete/unsupported and is problematic and unreliable
Breakers are 40 years old and are unreliable
Heat exchangers are beyond their expected service life System is obsolete/unsupported and is problematic and unreliable
Water heaters in East sector in need of upgrade
System is obsolete/unsupported and is problematic and unreliable
Chiller, boiler and domestic hot water system have exceeded useful life and needs replacement
System is obsolete/unsupported and is problematic and unreliable
Existing tanks exceeded life expectancy
Existing body alarm is problematic and no longer supported.
Replace failing UPS'
Improve access while reducing vehicle damage
System is obsolete/unsupported and is problematic and unreliable
Convert old Veg prep area to a large refrigerated warehouse Safety enhancement
Existing conditions create hazards for the public and staff
Miles of underground lines need rehabilitation and replacement
Replace denerator to prevent a loss of power during an outage.
Replace generator to prevent a loss of power during an outage. Perimeter road asphalt repair and privacy fence (existing fence deteriorating)
Perimeter road asphalt repair and privacy fence (existing fence deteriorating)
Perimeter road asphalt repair and privacy fence (existing fence deteriorating) Increase efficiency and decrease energy consumption Replace windows and add Insulation Passed life expectancy, minimal insulation
Perimeter road asphalt repair and privacy fence (existing fence deteriorating) Increase efficiency and decrease energy consumption Replace windows and add Insulation Passed life expectancy, minimal insulation Replace original roof and decrease water infiltration / damage
Perimeter road asphalt repair and privacy fence (existing fence deteriorating) Increase efficiency and decrease energy consumption Replace windows and add Insulation Passed life expectancy, minimal insulation Replace original roof and decrease water infiltration / damage Door controls, motors and hardware past life expectancy
Perimeter road asphalt repair and privacy fence (existing fence deteriorating) Increase efficiency and decrease energy consumption Replace windows and add Insulation Passed life expectancy, minimal insulation Replace original roof and decrease water infiltration / damage Door controls, motors and hardware past life expectancy New roof, windows, doors, flooring and heat needed
Perimeter road asphalt repair and privacy fence (existing fence deteriorating) Increase efficiency and decrease energy consumption Replace windows and add Insulation Passed life expectancy, minimal insulation Replace original roof and decrease water infiltration / damage Door controls, motors and hardware past life expectancy New roof, windows, doors, flooring and heat needed Walkways are broken in many areas, increase safety for staff and inmates
Perimeter road asphalt repair and privacy fence (existing fence deteriorating) Increase efficiency and decrease energy consumption Replace windows and add Insulation Passed life expectancy, minimal insulation Replace original roof and decrease water infiltration / damage Door controls, motors and hardware past life expectancy New roof, windows, doors, flooring and heat needed Walkways are broken in many areas, increase safety for staff and inmates Replace failing UPS'
Perimeter road asphalt repair and privacy fence (existing fence deteriorating)         Increase efficiency and decrease energy consumption         Replace windows and add Insulation         Passed life expectancy, minimal insulation         Replace original roof and decrease water infiltration / damage         Door controls, motors and hardware past life expectancy         New roof, windows, doors, flooring and heat needed         Walkways are broken in many areas, increase safety for staff and inmates         Replace windows and add Insulation
Perimeter road asphalt repair and privacy fence (existing fence deteriorating) Increase efficiency and decrease energy consumption Replace windows and add Insulation Passed life expectancy, minimal insulation Replace original roof and decrease water infiltration / damage Door controls, motors and hardware past life expectancy New roof, windows, doors, flooring and heat needed Walkways are broken in many areas, increase safety for staff and inmates Replace failing UPS' Replace windows and add Insulation Replace windows and add Insulation Replace windows and add Insulation
Perimeter road asphalt repair and privacy fence (existing fence deteriorating)         Increase efficiency and decrease energy consumption         Replace windows and add Insulation         Passed life expectancy, minimal insulation         Replace original roof and decrease water infiltration / damage         Door controls, motors and hardware past life expectancy         New roof, windows, doors, flooring and heat needed         Walkways are broken in many areas, increase safety for staff and inmates         Replace windows and add Insulation
Perimeter road asphalt repair and privacy fence (existing fence deteriorating) Increase efficiency and decrease energy consumption Replace windows and add Insulation Passed life expectancy, minimal insulation Replace original roof and decrease water infiltration / damage Door controls, motors and hardware past life expectancy New roof, windows, doors, flooring and heat needed Walkways are broken in many areas, increase safety for staff and inmates Replace failing UPS' Replace windows and add Insulation
Perimeter road asphalt repair and privacy fence (existing fence deteriorating) Increase efficiency and decrease energy consumption Replace windows and add Insulation Passed life expectancy, minimal insulation Replace original roof and decrease water infiltration / damage Door controls, motors and hardware past life expectancy New roof, windows, doors, flooring and heat needed Walkways are broken in many areas, increase safety for staff and inmates Replace failing UPS' Replace windows and add Insulation Replace windows and add Insulation Current parking lot has large cracks & potholes throughout compound; need more parking spots Replace windows and add Insulation
Perimeter road asphalt repair and privacy fence (existing fence deteriorating) Increase efficiency and decrease energy consumption Replace windows and add Insulation Passed life expectancy, minimal insulation Replace original roof and decrease water infiltration / damage Door controls, motors and hardware past life expectancy New roof, windows, doors, flooring and heat needed Walkways are broken in many areas, increase safety for staff and inmates Replace failing UPS' Replace windows and add Insulation Current parking lot has large cracks & potholes throughout compound; need more parking spots Replace windows and add Insulation Safety and security concerns Replace windows and add Insulation Passed Insulat
Perimeter road asphalt repair and privacy fence (existing fence deteriorating)         Increase efficiency and decrease energy consumption         Replace windows and add Insulation         Passed life expectancy, minimal insulation         Replace original roof and decrease water infiltration / damage         Door controls, motors and hardware past life expectancy         New roof, windows, doors, flooring and heat needed         Walkways are broken in many areas, increase safety for staff and inmates         Replace failing UPS'         Replace windows and add Insulation         Current parking lot has large cracks & potholes throughout compound; need more parking spots         Replace windows and add Insulation         Safety and security concerns         Replace windows and add Insulation         Permanent upgrade project         Replace windows and add Insulation
Perimeter road asphalt repair and privacy fence (existing fence deteriorating) Increase efficiency and decrease energy consumption Replace windows and add Insulation Passed life expectancy, minimal insulation Replace original roof and decrease water infiltration / damage Door controls, motors and hardware past life expectancy New roof, windows, doors, flooring and heat needed Walkways are broken in many areas, increase safety for staff and inmates Replace windows and add Insulation Safety and security concerns Replace windows and add Insulation Permanent upgrade project Replace windows and add Insulation Replace windows and add Insulation
Perimeter road asphalt repair and privacy fence (existing fence deteriorating)         Increase efficiency and decrease energy consumption         Replace windows and add Insulation         Passed life expectancy, minimal insulation         Replace original roof and decrease water infiltration / damage         Door controls, motors and hardware past life expectancy         New roof, windows, doors, flooring and heat needed         Walkways are broken in many areas, increase safety for staff and inmates         Replace failing UPS'         Replace windows and add Insulation         Current parking lot has large cracks & potholes throughout compound; need more parking spots         Replace windows and add Insulation         Safety and security concerns         Replace windows and add Insulation         Permanent upgrade project         Replace windows and add Insulation         Permanent upgrade project         Replace windows and add Insulation
Perimeter road asphalt repair and privacy fence (existing fence deteriorating)         Increase efficiency and decrease energy consumption         Replace windows and add Insulation         Passed life expectancy, minimal insulation         Replace original roof and decrease water infiltration / damage         Door controls, motors and hardware past life expectancy         New roof, windows, doors, flooring and heat needed         Walkways are broken in many areas, increase safety for staff and inmates         Replace failing UPS'         Replace windows and add Insulation         Current parking lot has large cracks & potholes throughout compound; need more parking spots         Replace windows and add Insulation         Safety and security concerns         Replace windows and add Insulation         Permanent upgrade project         Replace windows and add Insulation         Permanent upgrade project         Replace windows and add Insulation
Perimeter road asphalt repair and privacy fence (existing fence deteriorating)         Increase efficiency and decrease energy consumption         Replace windows and add Insulation         Passed life expectancy, minimal insulation         Replace original roof and decrease water infiltration / damage         Door controls, motors and hardware past life expectancy         New roof, windows, doors, flooring and heat needed         Walkways are broken in many areas, increase safety for staff and inmates         Replace failing UPS'         Replace windows and add Insulation         Replace windows and add Insulation         Current parking lot has large cracks & potholes throughout compound; need more parking spots         Replace windows and add Insulation         Safety and security concerns         Replace windows and add Insulation         Permanent upgrade project         Replace windows and add Insulation         Permanent upgrade project         Replace windows and add Insulation         Permanent upgrade project         Replace windows and add Insulation         Replace windows and add Insulation         Permanent upgrade project         Replace windows and add Insulation         Permanent upgrade project         Increase efficiency and decrease energy consumption         Add electrical receptacles, MATV and in
Perimeter road asphalt repair and privacy fence (existing fence deteriorating)         Increase efficiency and decrease energy consumption         Replace windows and add Insulation         Passed life expectancy, minimal insulation         Replace original roof and decrease water infiltration / damage         Door controls, motors and hardware past life expectancy         New roof, windows, doors, flooring and heat needed         Walkways are broken in many areas, increase safety for staff and inmates         Replace failing UPS'         Replace windows and add Insulation         Current parking lot has large cracks & potholes throughout compound; need more parking spots         Replace windows and add Insulation         Safety and security concerns         Replace windows and add Insulation         Permanent upgrade project         Replace windows and add Insulation         Permanent upgrade project         Replace windows and add Insulation
Perimeter road asphalt repair and privacy fence (existing fence deteriorating)         Increase efficiency and decrease energy consumption         Replace windows and add Insulation         Passed life expectancy, minimal insulation         Replace original roof and decrease water infiltration / damage         Door controls, motors and hadware past life expectancy         New roof, windows, doors, flooring and heat needed         Walkways are broken in many areas, increase safety for staff and inmates         Replace failing UPS'         Replace windows and add Insulation         Replace windows and add Insulation         Current parking lot has large cracks & potholes throughout compound; need more parking spots         Replace windows and add Insulation         Safety and security concerns         Replace windows and add Insulation         Permanent upgrade project         Replace windows and add Insulation         Permanent upgrade project         Replace windows and add Insulation         Replace windows and add Insula
Perimeter road asphalt repair and privacy fence (existing fence deteriorating)         Increase efficiency and decrease energy consumption         Replace windows and add Insulation         Passed life expectancy, minimal insulation         Replace original roof and decrease water infiltration / damage         Door controls, motors and hardware past life expectancy         New roof, windows, doors, flooring and heat needed         Walkways are broken in many areas, increase safety for staff and inmates         Replace failing UPS'         Replace windows and add Insulation         Replace windows and add Insulation         Current parking lot has large cracks & potholes throughout compound; need more parking spots         Replace windows and add Insulation         Safety and security concerns         Replace windows and add Insulation         Permanent upgrade project         Replace windows and add Insulation         Permanent upgrade project         Increase efficiency and decrease energy consumption         Add electrical receptacles, MATV and intercom in New Center - Blocks, 37, 38 & 39         Code compliance         Stop water damage from rain and snow
Perimeter road asphalt repair and privacy fence (existing fence deteriorating)         Increase efficiency and decrease energy consumption         Replace windows and add Insulation         Passed life expectancy, minimal insulation         Replace original roof and decrease water infiltration / damage         Door controls, motors and hardware past life expectancy         New roof, windows, doors, flooring and heat needed         Walkways are broken in many areas, increase safety for staff and inmates         Replace windows and add Insulation         Safety and security concerns         Replace windows and add Insulation         Permanent upgrade project         Replace windows and add Insulation         Permanent upgrade project         Replace windows and add Insulation         Permanent upgrade project         Increase efficiency and decrease energy consumption         Add electrical receptacles, MATV and intercom in New Center - Blocks, 37, 38 & 39         Code compliance         Stop water damage from rain and snow         Warden's House (Cheshire)         Health Unit
Perimeter road asphalt repair and privacy fence (existing fence deteriorating)         Increase efficiency and decrease energy consumption         Replace windows and add Insulation         Pessed life expectancy, minimal insulation         Replace original roof and decrease water infiltration / damage         Door controls, motors and hardware past life expectancy         New roof, windows, doors, flooring and heat needed         Walkways are broken in many areas, increase safety for staff and inmates         Replace windows and add Insulation         Current parking lot has large cracks & potholes throughout compound; need more parking spots         Replace windows and add Insulation         Safety and security concerns         Replace windows and add Insulation         Permanent upgrade project         Replace windows and add Insulation         Permanent upgrade project         Increase efficiency and decrease energy consumption         Add electrical receptacles, MATV and intercom in New Center - Blocks, 37, 38 & 39         Code compliance         Stop water damage from rain and snow         Warden's House (Cheshire)         Health Unit
Perimeter road asphalt repair and privacy fence (existing fence deteriorating)         Increase efficiency and decrease energy consumption         Replace windows and add Insulation         Passed life expectancy, minimal insulation         Replace original roof and decrease water infiltration / damage         Door controls, motors and hardware past life expectancy         New roof, windows, doors, flooring and heat needed         Walkways are broken in many areas, increase safety for staff and inmates         Replace windows and add Insulation         Safety and security concerns         Replace windows and add Insulation         Permanent upgrade project         Replace windows and add Insulation         Permanent upgrade project         Replace windows and add Insulation         Permanent upgrade project         Increase efficiency and decrease energy consumption         Add electrical receptacles, MATV and intercom in New Center - Blocks, 37, 38 & 39         Code compliance         Stop water damage from rain and snow         Warden's House (Cheshire)         Health Unit

Current system is obsolete and failing
Only half the compound is covered by the generator
Increase efficiency and decrease energy consumption
Storage House
As existing HVAC equipment fails, funds are required to replace these systems to provide heating.
Upgrade public visitation areas for possible new legislation - modifications/security enhancements
To reduce incoming contraband
Study to install A/C for New Center 37, 38 & 39 housing units
Perimeter wall and masonry building façade repointing & repair PROJECT BI-JA-467
Roof has exceed its life expectancy and repairs are frequent
Safety and security concerns
System is obsolete/unsupported and is problematic and unreliable
Enhance security access during inclement weather
Roof is over 90 years old
Water leaking into building from failed seals
Improve access to facility and fire egress access
Roof has exceed its life expectancy and repairs are frequent
System is obsolete/unsupported and is problematic and unreliable
All roofs except Dorms 1 & 2
Split A/C Units on roof need replacement
Windows are rotted on various floors of buildings
Replace existing system and add more HVAC equipment to EMS.
Chiller, cooling tower, boiler and domestic hot water systems are passed life expectancy
Roof is beyond life expectancy and leaking
Resurface the Rec Yard
Repave and widen road to improve fire egress / access
Exterior windows are delaminating
Interior & exterior Walls, rooms, built in 1930-40's
On-site record storage
Installation of A/C for East, Center and West Block housing units
Installation of barrier to prevent jumping from upper tier
Generator replacement needed due to condition of existing system
Study to install A/C for Medical,Admin,Housing Units,Kitchen,Industries, Gym,Stockroom,Laundry
Current phone system is obsolete. Needs upgrade.
Replace flooring to eliminate tripping hazard - Safety Issue
Replace obsolete equipment
Major renovation needed and reduce energy costs
Original locks are difficult to open and in constant need of maintenance
Increase efficiency and decrease energy consumption
New center air handlers and controls
Madison air handlers and controls
Storage House
Per Building Build-out Study modifcations to make ADA complaint & fit the needs for Parole
District 2 Crew House
PFE 2 Satellite Office (Cheshire)
all buildings have cracks in masonry façade between expansion joints
Current parking lot has large cracks & potholes throughout compound; need more parking spots
Roof has exceed its life expectancy and repairs are frequent
Sub-metering to control & reduce costs
Sewer, water and electrical distribution lines need updating
Existing roof , Leaks 25 + years
Existing boilers 25+ years old past life expectancy
Replace generator to prevent a loss of power during an outage.
PM Switch Gear And Breakers
PM Switch Gear and Breakers
Deplose generator to provent a loss of newer during an extense
Replace generator to prevent a loss of power during an outage.
Removal of existing carpeting in Admin area
