

regarding Expanding the Absentee Voting Rights:

I believe that there may be problems with our Presidential Election in November.
Please draft this present bill:

- 1) To ensure that we will have the voting rights we might need if we have to vote in Special Elections early in 2021.
- 2) These absentee voting rights should align: be sure that the State Statute aligns with the State Constitution. They should not be in conflict: the meaning should be clear in both.
- 3) please remove from the draft: "such electors or persons".
- 4) make these voting rights permanent. We ought not to have to call a Special Session to settle this question. Let's do it now, once and do it correctly.

Thank-you for hearing me.
