

My name is Diana Singer. I am a resident of Greenwich CT, and am an elected official on the RTM District 10.

Voters should NOT have to choose between their safety during this dangerous pandemic and their right to vote. As a result, all citizens should have the right to vote by absentee ballad as long as the pandemic is a threat to anyone, or until there is a shot easily and safely made available. Absentee voting for all registered voters during this deadly pandemic is a bipartisan issue and should be implemented for all as soon as possible.

Thank you,

Diana Singer
