

Dear Committee Members,

As we continue in the midst of this horrific pandemic I would be most grateful for the opportunity to vote by mail and exercise my precious rights without the fear of contracting this pernicious and deadly virus.

Furthermore I have a number of co-morbidities: age 68; high blood pressure; and recovering from lung cancer surgery (diminished lung capacity) which makes voting by mail a necessity.

Thank you so much for your efforts in addressing this most important issue.

Jeffrey Jump
