

Honorable Members of the GAE Committee:

**This written testimony is in support of proposed legislation LCO 3576 AAC
Absentee Ballot Voting.**

**I have spoken to many people who do not want to enter a small
enclosed space to vote in November. My mother in law is immune
compromised and she should not have to risk her life to vote.**

Additionally the poll workers are mostly elderly and a highest risk.

**It's a no brainer to fix the absentee voting language so that people
can be safe.**
