*Madison Mullen continued...*

“During every step of the stressful college search process, I am so thankful that I chose to attend the University of Hartford. Not only do they offer one of the best business schools in Connecticut, but they also granted me the generous President-to-President Scholarship of \$18,000 which made financing my last two years of college much easier on both my parents and me. The ease of transferring courses took off a lot of stress, as well.

The quality of the courses I have taken were challenging, but effective. UHart’s Barney School of Business has pushed me to be the best student I can be; and as a result, I am now working hard towards earning my Bachelors of Science in Business Administration for Accounting, am an honors program student and have been selected to join the National Honors Society of Leadership and Success”.
