

Report on Transfer and Articulation

January 2026

Introduction & Background

In compliance with Connecticut General Statutes 10a-55w, the University of Connecticut (UConn) has developed this report, which presents enrollment counts, average number of credits accepted and graduation rates for transfer students at large, as well as respective rates for students from the Connecticut State Community College and for those students entering through the Guaranteed Admission Program (GAP).

UConn is committed to providing access to transfer students and a robust educational experience as they progress toward their bachelor's degree. We have worked diligently to develop our GAP that assures community college students that all their general education credits will be accepted by the institution when they are admitted to UConn if they earn a minimum 3.0 cumulative grade point average and earn an associate degree in an approved academic program. UConn is working with Connecticut Community College to identify high impact programs that, if included in our GAP could assist in addressing CT workforce needs by producing graduates with necessary skills/knowledge.

In the Fall of 2025, we welcomed 753 transfer students to our Storrs campus. 321 of these students, or 42.6%, were from the Connecticut State Community College, many of which enrolled in GAP. We work with these transfer students and collaborate with their institutions to facilitate a smooth transition and provide specific information about the transferability of individual courses from the Connecticut State Community College and other public and private institutions to UConn. By using online resources and collaborating with staff at other universities and colleges, students can matriculate at UConn with the vast majority of their general education requirements completed.

We are immensely proud of the following:

1. The Guaranteed Admissions Program (GAP) assures community college students' admission to UConn if they earn a minimum 3.0 cumulative grade point average and earn an associate degree in an approved academic program.
2. We developed an easy-to-use web-based tool to enable students to access and determine the transferability of courses from institutions within Connecticut and some surrounding states, as well as military coursework and training, for planning purposes.
3. Credit evaluations are provided at the time the student is admitted to UConn. This provides transparency to prospective students in advance of their transfer decisions.
4. We established a simplified pathway for students moving from associate to bachelor's degree programs by establishing a streamlined route for students who complete a Transfer-Oriented associate degree at CT State to continue their studies at the University of Connecticut. The university now waives general education requirements (also known as the Common Curriculum) for eligible students, allowing them to focus directly on their major coursework. To date, two University of CT programs have been designated as Transfer-Oriented.
<https://admissions.uconn.edu/apply/transfer/block-transfer/>

The Guaranteed Admissions Program (GAP)

- Piloted in 2008/2009, this program assures community college students' admission to UConn if they earn a minimum 3.0 cumulative grade point average and earn an associate degree in an approved academic program. Currently, UConn offers the GAP program in over seventy majors, and we are looking to expand this in the future.
- There is significant mutual commitment to this program established as a partnership in 2004 to offer a seamless transition from the associate to the bachelor's degree program. In 2010, the Guaranteed Admissions Program (GAP) Agreement was formalized. In 2012, the agreement was revised to offer GAP students greater flexibility to enter UConn at a later point in their associate program.
- GAP is maintained and enhanced by the Guaranteed Admissions Oversight Committee (GAOC), which includes membership of faculty and staff at UConn and the CT State Community College. The GAOC meets twice a year.
- In 2017, in collaboration with the community college presidents, UConn created a President-to-President Scholarship offered to students who enter UConn under GAP.
- In 2021, to eliminate cost barriers for GAP students, UConn made GAP applications available to students without an application fee.
- In Summer 2022, the *Transfer Credit Taskforce* finalized and shared recommendations.
- In 2023 and 2024, the implementation and operationalization work for the Transfer Credit Taskforce recommendations began. Accomplishments to date include the expansion of the web-based tool to include colleges and universities outside Connecticut and the development of a transfer student survey.
- Graduation rate trends for GAP transfers and non-GAP transfers from UConn are shown in the tables on pages six through eleven of this report.

The Transfer Evaluation Process

- Our admissions website's easily accessible and straightforward link: *Transfer Course Equivalencies*: <https://admissions.uconn.edu/apply/transfer/transfer-credit/equivalencies> informs prospective transfers which courses, by specific Connecticut institution, are transferrable for credit to UConn. It also strongly urges students to visit the site often and consult with their academic advisor at their current institution for final determination as to how transfer credit might apply to a UConn degree program.
- This website is the result of work completed by UConn, Connecticut State University (CSU), and Connecticut State Community College to ensure that transfer and articulation information is available to transfer students and particularly CSU-GAP, and non-GAP Community College students. We work closely with faculty at CSU and the CT State Community College to make sure that every course offered at CSU and the Community State Colleges is tied directly to its UConn equivalent in all but a few instances.
- UConn's current policy advises transfer students that online courses in laboratory sciences, including those offered in hybrid format, do not transfer; and that Pass/Fail grades are considered for credit given specific student circumstances. Some of the policies that were suspended, due to the continuing impact of COVID-19, have since been revised or removed as part of the permanent policy on transfer credit. Students should visit the Admissions Office website for the latest information.
- Relevant transfer credit information is described on the Admissions Office website as follows: Transfer credit is awarded in semester hours. Grades from prior institution(s) do not transfer. Incoming courses are considered and transferred as either equivalent to courses at UConn (same department and number as in UConn catalog) or generic (same department but with a 5-digit number assigned that begins with nine, as in 91000, 92000, etc.). Students will work with their UConn advisor to determine how generic credit best fits their degree requirements.
- UConn awards credit for courses taken at regionally accredited, degree-granting colleges and universities that are comparable in content and quality to UConn courses, appear in the institution's regular undergraduate catalog, and are completed with a minimum grade of "C."
- Transfer guides are available to provide better transparency on the transfer of general education courses from the Connecticut State Community College.
- Our Admissions Office offers flexibility to students throughout the process, including evaluation of unofficial transcripts due to challenges in sending official copies and considering hardships due to the pandemic in the review of an application.

Transfer Recruitment and Marketing

- Through the Guaranteed Admissions Oversight Committee, UConn transfer admissions staff and academic advisors meet twice annually with community college counselors and conduct presentations regarding the transfer processes and requirements and discuss enhancements to the Guaranteed Admissions Program.
- This past fall, we welcomed over twenty-five members of the CT State Community College Advising community to the Storrs campus for a professional development workshop that included presentations from our School and Colleges, Office of the Provost, and the Common Curriculum Committee.
- Communication continues throughout the year among UConn, community college staff, and students.
- .
- UConn staff coordinate and attend programs at each CT State Community College campus every year to visit with current students about transfer options to UConn, including GAP. These visits also provide opportunities for UConn and CT State Community College staff to discuss opportunities for enhancing transfer enrollment processes for students. UConn also hosts open houses and other visitation programs specifically designed to meet the needs of transfer students. Programming also includes a new student orientation program specially designed for GAP students.
- UConn also welcomes transfers from the Ct. State University and private colleges and universities in Connecticut, as well as transfers from out-of-state institutions. Most students transferring from out-of-state institutions are Connecticut residents returning home.
- There are many opportunities for students to connect with Admissions Office personnel both in-person and virtually. In addition to the ability to contact the office by phone or e-mail, we offer virtual campus tours, transfer admission information sessions, and one-on-one video chats with an Admissions Office staff member.
