

Saturday, July 18, 2020

Dear House Judiciary Committee Members,

Please support the measures in DRAFT LCO #3471 regarding increased Police Accountability.

I am extremely concerned about the lack of policy to address grievances by all people encountering and confronted by the police.

#3471 is an excellent start in building more transparency throughout law enforcement. Safety in our communities is inextricably tied to accountability for fair treatment under the law.

Thank you for supporting this Bill because it will also help the police as a whole better fulfill the mission to "Serve and Protect" all people.

Sincerely,

Alison V. Scherer
