

To Whom It May Concern,

This email is intended to express my opposition to the passing of a Police Reform Bill. This will severely affect our communities for the sake of a handful of awful law enforcement individuals that ruin this for everyone. If this bill is passed this will absolutely deter great law enforcement officers, who for the most part are true heroes in the community, from wanting to go out and get guns, drugs and dangerous people off of the street. Would anyone want to if they were constantly worried about not being protected? The bill will absolutely cripple our communities. Let's see how much crime increases without the majority of great law enforcement doing their job correctly and preventing and stopping crime because they're too worried about their protection. This is truly ludicrous.

My name is Amy and I'm from Wethersfield.

Thanks.
