

I am strongly against the Section 41 Police Reform Bill. I fear for the future and safety of all of us if something like this would actually be passed. Who will be left to protect us? And will I even be able to legally protect myself at that point. I feel the rights of the good guys are being stripped away before our eyes and if all this happens and we will all be in danger, something that could be prevented. This is coming from a mother with young children. We need to be protected.

I live Bristol Connecticut, my name is Carrie Pisani

Thank you
