

My name is Cindy Hartsburg of Shelton CT and I am begging that you oppose the above proposed bill.

I believe that the bill has many aspects to it that will show to be horrific for our state as well as for the safety and well being of all our citizens and police officers.

I do not believe that this is the sort of change that is necessary, it is in fact a change that will instill fear and will result in a more dangerous environment for us all.

Our police officers have always served and protected us 24/7 365 days a year, missing family, holidays etc. and to not continue this sort of protection is beyond detrimental to our society.

Please oppose this bill

Sincerely,

Cindy Hartsburg - Principal
