

Franklin Rutledge

This is a step in the right direction. It is what I call the practice mentality. The real action starts on game day when all the players and coaches are in full uniform, the referees are on the field and the fans are seated.

I was attacked on April 13, 2015 by Trooper Thomas Krynski while I was in the breakdown lane on Route 72 West, in Plainville, CT. My car had a flat tire and I was waiting for the tow truck. I told you about it and I told my State Representatives of Bristol about it. You all didn't do and would not do anything about it.

I contacted the Internal Affairs office and the person that answered the phone kept interrupting me and blaming me for the officer's actions. Eventually I was assigned a case and it was determined that the Trooper and his partner were at fault for acting unbecoming as Connecticut Police Officers. The officers stated that if they had to do it over again, they would not act in that manner.

I decided to take the State to Court to bring awareness to this evil. During the deposition between my lawyer and Krynski, your Assistant District Attorney James Caley 'lead' Krynski to recant his guilty confession. He actually said to Krynski, if someone upset you, you have a right to retaliate, right? I have the written guilty confession. I have the dash cam of the incident. I have the deposition of my lawyer Sally Roberts, Thomas Krynski and James Caley. Your Attorney General's Office is the problem as to why these crimes keep being committed.

In January 2018, I called the AG's office after submitting an online form. I wanted to help the police department stop what they did to me. They received the form, but never replied. Then I called. They said they received the form, but they were not going to do anything about it. Then to make matters worse, the guy told me not to call back and he hung up on me. I called back and the female clerk hung up on me. They would not give me their names. Lol.

I'm ready to bring this to light again. Sir, it's election time and I would hate to think that you and others are signing these false bills to get elected. Start with me. Reply to me if your are serious.

But, here is the real problem; the Black and White Color Code. There is only one race of people. The Founding Fathers stated this by saying, "All men are created equal." But you don't get it. Treat everybody as One American, then you will not have these racial problems. Remove race from Federal and State forms.

I will continue my quest to remove all Black and White people out of office until I get the Color Code destroyed in America. Citizenry contradicts your labeling of Americans as African-American. Black is the color of tar and White is the color of snow. There are no Black or White people. So, why call people these lies? Do you want change or do you want a vote?
