

To whom it may concern,

This email concerns the ratifying of the proposed Police Accountability Bill. I feel it's prudent to review and closely examine the legislative draft to determine if any of the proposed legislation could have some unintended consequences. One major concern is that of page 37 41-Cival Cause Of Action Against Certain Police Officers. If you strip the protections and immunity away from Ct Law Enforcement Officers from potential civil lawsuits, you ultimately expose them to frivolous litigation with every encounter they make. Accusations will be made, a lawsuit will ensue regardless of merit.

Perhaps every Ct State Representative, Senator, even Governor Lamont should do a "ride-along" and experience first hand the dangers our men and women in blue experience daily before making the final decision on this Bill.

Sincerely,

Heidi Lupini
