

I strongly urge you all to vote against this proposal. I am a firefighter and I work hand in hand with our law enforcement officers everyday. They are a proud profession out there helping people everyday. We need to support them , not break them down. There is always room for improvement in any area of society, including police work , however , this so called proposal falls extremely short of accomplishing any thing that remotely resembles positive change. If this was to pass it will not only decimate a once proud profession , but it will ultimately cause the destruction of our fine state through increased crime and less policing. Crime would spike dramatically putting all the lives of our citizens in harms way. The safety of our citizens will be greatly reduced. That fact alone should be enough for all of you to reject this proposal. Bottom line , if you care about the people of this great state, you will not support this. Thank you
