

As a retired Deputy Sheriff, I am not in favor, of either DEFUNDING or LIMITING the powers of an LEO. They work in the environment that no one else would. They put their lives on the line 24/7, while you brainless politicians, just sit back, and day dream about how to mess with them. Most of all your scared and tolerate all the rioting, lootings, fires and shootings. What we need is a totally new Congress, who isn't afraid of hurting peoples feelings, and do their job, they were elected to.
