This is the most ludicrous thing I have ever heard. If you get rid of these protections, you get rid of the police. Who are we going to call when there is an emergency??? I am honestly baffled by what is going on in the government...allowing riots, looting, violent protests, graffiti...all in the name of a terrorist group (BLM). You are fighting for this because A VIOLENT, CONVICTED FELON, was killed by the police??? One man who was no good to mankind anyway? Absolutely mad. This is wrong and should not be done.

Thank you,
