

Dear Sirs,

I strongly oppose The Police accountability bill.

I have an understanding that the CT state police has a very detailed written policy for use of force. The Troopers in our state receive extensive training related to the boundaries of use force and there already is an avenue for complaints against police open to the public, and that Internal Affairs already oversees culpability. These new concerns are a knee jerk reaction to mob rule, and that CT does not have systematic problems with use of force, or any racial " profiling" for that matter. Not one officer in this country agrees with what that cop in Minneapolis did. He murdered that guy. But now, 18 police officers are now dead- murdered.

Why do people hit the gas and run when a cop pulls them over? Why do people fight when being arrested? This drastic increase in this is staggering, What are these kids being taught in driver's Ed? Or in school??? There have been a staggering increase in pursuits, fights...etc. Where are the protests and concern for the hundreds of city kids killing each other and now increasing because the leaders and media are tying the hands of the police?

The use of force effects police at work. If they lose qualified immunity ...it will effect their lives. They will lose their houses, property, everything they have worked for.

Please support the men and women in blue and support LAW AND ORDER – Oppose the Police Accountability Bill!.

Best Regards,

Kenneth Ernhout
