

Good morning,

I implore you to pass An Act Concerning Police Accountability. My 8 year old Black nephew is terrified of the police he sees in CT. He is so young and yet he fears for his life. He wants to protest, he wants to believe there are good police out there but he squeezes my hand so tight when a cop car goes by and it breaks my heart.

How many more Black men, women and children need to die at the hands of police before the government commits to enacting solutions for real long-lasting change?

Please pass the AACPA!

Thank you,
