

To all current State representatives----I am writing to urge you all to think carefully before voting to abolish "Qualified Immunity" for Ct state police. This appears to be a direct response to the Black Lives Matter Movement yet has nothing to do with racial inequality or social injustice. In fact the most affected will be the inner city residents----the very same people BLM says the are trying to speak for. I am sure you all are aware, despite what mainstream media will say, that "Qualifed Immunity" does NOT protect police officers who are apart of heinous acts and misuse of authority like the one who killed George Floyd. If this bill were to pass then I say each and everyone of you will be personally responsible for the increase in crime, shootings and ultimately death of innocent people. Please consider carefully before you vote.

Respectfully, Lynne Nohelty Manchester, Ct
