NO to Draft Bill LCO #3471.

Dear Legislators;

I find it sad that you feel the need to rush into such a sweeping and overblown endeavor while not in session and completely bypassing long standing procedure.

Granted there are a small percentage of “bad cops” however this holds true with any profession and the acts of a few should not taint the integrity of all law enforcement official which this bill alludes to.

This is a farce.

Thank you,

Mike Nintean
