

Please leave the police alone! They are not the issue. Outrageous ,disrespectful, drugged up ,defiance by some citizens is the issue. Sure a few cops are bad apples, as in any profession. This is all politically motivated by the Dems. A few in house therapists should oversee the morale of cops & keep abreast of any issues that may be surfacing. Independent probes of policing is a very bad idea. Self -proclaimed experts will b sending them to the guillotine left & right because of the reverse racism that is very prominent in our society but no-one wants to address it. People should be judged not by color but by BEHAVIOR!
