

To who may it may concern,

As a elder, middle class taxpayer of CT I disagree with the following sections of this bill and the reason why. I totally agree police need more accountability but it appears other non-essential items were slipped into this bill.

-- 13 Post membership changes.

As a overburdened taxpayer in one of the most expensive states in the country taxpayers cannot afford any more new unnecessary positions in the State of CT. Please we cannot afford it.

--5 & 6 Crowd Management

I am against this provision at times when protests turn violent crowd control techniques are needed to avoid more violence and destruction on property and businesses.

--21& 22 Prohibition on consent searches

I am against this provision for the reason being if a wanted criminal, possible kidnapper, gets pulled over the police would be able to identify and arrest on the scene to prevent more criminal acts.

--33 Officer of Inspector General

CT taxpayers simply cannot afford another redundant position making a six figure salary.

--40 Prohibition on use of military equipment.

I am totally against at times police need armored vehicles in a SWAT or hostage scenario, police depts need military equipment.
