

I urge you to respect and insure fair protection of the 99% of LEO's who are professional and positively engaged with their community. Address the 1% of LEO's who may be unsuited for law enforcement as the exception that they are.

To blindly follow the example of other states and begin defunding law enforcement is to encourage the 'mobocracy' that is destroying our way of life.

I hope you think enough of our citizens that you will find the courage to stand up against the mob. The citizens of Connecticut have a cynical view of state government, I would love to see you act to change that.

Thank you

Robert Caponetti

Warren, CT
