

To whom can make a difference,

So much has happened in 2020, and people have lost their way. But when actions are taking place that help to weed out the good police men/women and leave only the ones that don't have a conscious or empathy for anyone (of any color) it is truly a sad day. Politicians are afraid to stand up for what is best for the individual towns and our country because "someone " might disagree or it might go against their party lines. My dad, my brother, my brother in law were policemen, one son is military and my other son is currently a police officer. It is a shame to see their dedication scorned and my son be so openly disrespected. Please stand be our officers and don't take what little "power" & respect they have away from them.

Thank you,
