

Senator Anwar and Representative Delnicki:

I have worked with law enforcement for 30 years. I run a nonprofit that trains numerous CT police officers of all ranks. Our programs are all instructed by CT POST certified trainers and subject matter experts. I am proud to say that the training we give to our CT police is quality.

I am not saying that nothing be done. There is always room for improvement and growth, in fact I learn something new every day. What I am saying is PLEASE do not rush to pass legislation because of pressure from outside sources that do not have all of the facts.

I am very concerned about certain aspects of the proposed legislation concerning police accountability. The attack on police is dangerous. It has and will continue to make our communities less safe. Please review the attached memorandums. We need our government officials to seek and know the truth about police conduct before condemning police and placing unnecessary restrictions on law enforcement. We need to work together to support good and caring police who properly perform their jobs to make our communities better and safer. I thank you for your kind attention.
