

I received notes on what this listen session is, and I find parts of it disturbing.

Social workers to domestic calls, absurd. This is one of the most dangerous calls a police officer responds to. Switch this to a follow up visit.

Do not Defund the police! In fact their budgets need to increase. Drug traffic, HUMAN trafficking, SEX Trafficking, etc needs more police.

This is getting out of hand.

No POST certifications No civilian review boards, that is the job of the Police Commission and the states attorney.

Justified use of deadly force, these are split second decisions, made by an officer who may lose his life. After any shooting the states attorney reviews, this is enough.

NO to inspector General, another layer of government that can be abusive to all.

Civil Cause of action....there are laws already on the books that cover this, stop adding more!

The legislature passes criminal laws and the Police enforce them.

We are losing the safety that **every citizen** of the state deserves.

With some MINOR adjustments law enforcement should be allowed to do their jobs.

Stop making this a political circus!!!!
