**Testimony:**

Dear Corrections Committee,

I want to thank you for appointing an ombudsman. He will do a lot of good for this state. I am writing to you because my main concern is about the protection of children in our state prison facilities. My life's work is to root out the sexual abuse of children in this state and country. I want you to protect our children from these horrors which are going on in our prisons. Pedophiles are everywhere and we need this committee to investigate where and when this happens. They may be in prison with children and we can not have that. I ask you to watch "The Sound of Freedom" and take the lessons of Tim Ballard to do this.

Thank you for listening to my concerns and we all protect God's children.

Sincerely,  
Donna Farland
