Testimony:

Thank you for being a voice in a system that too often forgets there is a human being — and an entire family — affected by injustice. We also appreciate your effort to visit prisons directly. Your presence matters.

Our incarcerated family member is wrongfully convicted. Since over a year ago she has spent more than 40% of her time under repeated and extended lockdowns, severely limiting her access to visits, fresh air, and any sense of routine.

Please keep advocating for:

- Reduced and transparent lockdowns
- Increased access to medical, dental, and vision care — appointments often lag over 12 months
- Safer and thoughtful cell assignments.
- Painting, ventilation, and shower conditions in York Unit 3 are especially concerning
- Nourishing food and basic dignity
- An end to unnecessary and dehumanizing strip searches that violate the conduct manual

We believe in your role and thank you for standing in the gap between policy and humanity. Please keep going — you have our full support.
