Testimony:

To the Correction Advisory Committee:

I've asked around about people's experience with the ombudsman and besides myself, the only other person that has reached out to him has actually received some help whereas I have yet to hear anything, if I even get a response at all cause I wrote a two page letter detailing everything that I have gone through from the beginning to what was the present day at the time and that was almost 3 weeks ago I believe. so as for me the man has been very ineffective and I wrote him almost immediately after coming back from UConn detailing exactly what happened as I explained it to you and others
