

Name: José Ramos
Title: Incarcerated individual
Organization or Agency: CT DOC
Topic: Meeting Date Not Listed
NA

Testimony:

In my opinion and respectfully the man don't do nothing. People should present all the inmates grievances together, sent or told to him, and question him on what he did and when about them all. I don't think he did anything..... I myself was Targeted by a Captain Blackstock for no good reason..... A later investigation by a deputy Warden proved I did nothing wrong only after the damages had been done. (The captain took away my Barber job which went hand in hand with my cosmetology classes, that I was attending here in Cheshire CI, and rehabilitation/reform The captain took me out of my privilege/honor unit and had me placed in a disciplinary unit, etc.) The captain has never been reprimanded nor punished in anyway nor has the wrongs been made right or reversed. I told the ombudsman all of what happened, while he was walking past my cell door with another DOC Captain Roach, and how I wrote to the relevant people many times over and he just told me to write to them again. The other captain even began to slander and defame me in his presence and the man did nothing to stop her nor correct her. I had the camera preserved in case I needed to prove it.....the man ant deserving of the office and you and Barbara Fair have done his work and more for the inmates.
