**Testimony:**

I heard about the public hearing for the correction ombuds and have talked to a few people already. As far as the ombudsman, most men are not particularly happy with him. They feel as he is doing whatever he needs to do to stay in office. Meaning, he is not going to make any waves. Several men have written him and he basically told them he is too busy and cannot take requests. As for myself, I don't have any dealings with him and don't have an opinion either way. I think ombudsmen are a thing of the past. and the only way things will be done is by people like yourself or Barbra Fair.
