Hello, I am writing today to address the issue of the MacDougall Walker facility along with the ombudsman. I had an incident back in FEB. of 2025 where a video of my wife was being shared around the facility by the "INTEL" unit and other Department of Correction officers in the MacDougall facility. When I heard of this I contacted the ombudsman and state police only to be ignored and ignored some more I wrote State Reps for Wallingford district and never got a response wrote the Lt. Governor and got no response as well, the ombudsman came and did an investigation and found a person of interest but will not return calls or email since Aug. 2025 and won't respond to state police as well I don't know how the ombudsman is here to support inmates but is not helping at all how could people still hold jobs after an incident like this no reports have been released to me or my wife. Officers have access to inmates personal videos and are able to do as they please with our personal data whereas the oversight the continue to bring cell phones in the buildings to record us without permission and then distribute it among coworkers complete disregard for the rules but they want inmates to follow all rules but they don't lead by example and the ombudsman is here to help the department cover it up. I've written a letter request to Mr. WARD I will hope that this letter reach's the board.

page 2.

to bring some light on the lack of oversight
and internet at the rules officers
bring cell phones into the facility everyday
and it is clear a terminable offense
those are recording devices then the record inmates
and fights, segregation incidents video visits
and share them with coworkers and friends
do ~~we~~ I not have a right to privacy?
Thank you for your time

A large, stylized handwritten signature in dark ink, appearing to be 'D. Murphy'.

P.S.

I will remain anonymous
don't want any actions taken
against me but Mr. WARD
knows who I am and
the officers who shared the
video!
